

User Stories and Action Diagrams

Project Name: Roommate Dashboard

Document ID: UserStories

Control Label: D0-v1-r1

Date: 2/4/2026

Prepared By: Group 6

User Stories

US-001 As a roommate, I want to create a household so I can manage shared responsibilities with my roommates.

US-002 As a roommate, I want to invite roommates so everyone can join the same household dashboard.

US-003 As a roommate, I want to add a shared bill so the system can split the cost between roommates.

US-004 As a roommate, I want chores assigned and rotated so household work is shared fairly.

US-005 As a roommate, I want a shared grocery list so we can track what needs to be purchased.

Action Diagram (Text-Based)

Action Flow 1: Create Household

Start → Register/Login → Click “Create Household” → Enter household name → Save → Household dashboard created → End

Action Flow 2: Add Bill

Start → Click “Bills” → Click “Add Bill” → Enter bill name, amount, due date → Choose split method → Save → Bill appears in dashboard → End

Action Flow 3: Add Chore

Start → Click “Chores” → Click “Add Chore” → Enter chore name → Assign roommate → Set rotation schedule → Save → Chore appears → End

Action Flow 4: Add Grocery Item

Start → Click “Groceries” → Add item name → Save → Item appears on list → Mark purchased → End
