

Stakeholders

Project Name: Roommate Dashboard

Document ID: Stakeholders

Control Label: D0-v1-r1

Date: 2/4/2026

Prepared By: Group 6

Identified Stakeholders

Primary Stakeholders:

- Roommates (college students, young professionals, or anyone sharing housing)

Secondary Stakeholders:

- Household organizer (a roommate who sets up the household)
- Landlord or property manager (optional future stakeholder)
- Application administrator (project team)

Stakeholder Needs

Roommates

- Need a clear way to split bills fairly
- Need visibility of who has paid and who has not
- Need a fair way to assign chores and rotate responsibilities
- Need an easy shared grocery list to prevent double-buying

Household Organizer

- Needs an easy setup process
- Needs the ability to invite roommates quickly
- Needs a dashboard view of household status

Administrator

- Needs basic monitoring for system issues
- Needs the ability to review data for debugging purposes

Evidence of Contacting Stakeholders:

Hey how are you? Remember I told you about the roommate dashboard app last week. Do you see your self using this type of app?

Hey doing good wbu. Yh pretty solid idea. Makes life pretty easy with the roommates to be honest. Sometimes I be forgetting what payments I owe to my roommates. Something like that would actually be super useful.
